

## Common Currency Across the Casino Floor

- Prints and Scans TITO Vouchers at Table Games
- Scans Magnetic Cards at Table Games
- Connects Table Games to Existing TITO Networks

## Streamlined Casino Operations

- Reduces the Need to Replenish Chips at Table Games
- Eases TITO Cashing Traffic at the Cashiers Window
- Identifies Crossover Play

## Flexible Integration

- Designed for Both Legacy and New Table Games
- Customizable Dealer Touch Screen
- Ethernet Interface
- USB Upgrade Port
- Tabletop Mount Option
- Pole Mount Player Display Option

The revolutionary TableXchange® device is designed specifically to enable players to use cashout vouchers at table games. The TableXchange device connects table games to a casino's existing TITO network by scanning and printing TITO vouchers. This technology creates a common currency across the casino, creates a bridge between slots and tables, and helps casinos identify valuable crossover players. The TableXchange device further streamlines casino operations by virtually eliminating the need to replenish chips at table games.

To buy in, the player gives a TITO voucher to the dealer. The TableXchange device scans and displays the voucher value on the device's LCD and touchscreens, allowing the player, dealer, and security operations to confirm the voucher amount. The player then

receives chips and a TITO voucher for any cash balance. To cash out, the dealer simply collects and enters the value of the player's chips on the alpha-numeric keypad. The TableXchange device then prints a cashout voucher for the player.

The TableXchange device is fitted with a Magstripe reader to record and update Player's Club Cards, enabling players to receive loyalty points for activity at table games. In addition, the TableXchange device provides a variety of administrative interface features to assist the dealer. These functions include a programmable alpha numeric keypad with currency-type, table-limit selection, manual printer controls and the ability to print promotional coupons on demand.

General		Printing Resources	
<b>Dimensions</b>	Above Table: WxDxH: 147mm x 256mm x 101.6mm Below Table: WxDxH: 137mm x 304mm x 290.5mm	<b>Template Capacity</b>	8Mb; Stores hundreds of clip art objects & thousands of graphic templates
<b>Weight</b>	7.26 kg (16 lbs.)	<b>Graphic Storage</b>	6Mb
<b>Power Requirements</b>	24Vdc @ 2.7A	<b>Color Printing</b>	Red on Black and Blue on Black are available. Other colors can be supported as the print media becomes available. Color selection is controlled through the TCL™ language.
<b>Sensors</b>	Paper Low, Paper Out, Lid Open, Ticket Taken, Ticket Jam, Ticket in Chute, Black Mark (Includes a Host Controllable Buzzer)	<b>Characteristics</b>
